

PromoJukeBox Okta Integration Manual

Starting January 2024, PromoJukeBox is pleased to offer Okta integration for enhanced convenience and security within your organization. If you have any questions regarding Okta integration in PromoJukeBox, please contact us at tech@promojukebox.com.

Supported Features

- Single Sign-On - SP Initiated Auth
- Single Sign-On - IdP Initiated Auth
- Okta Integration Network Catalog
- Okta Dashboard Integration

Requirements

- Administrative access to an Okta organization.
- A PromoJukeBox account

Configuration Steps

1. Open a new tab/window in your browser and sign in to your Okta account as an administrator.2. Navigate to "**Applications**" and click on the "**Browse App Catalog**" button.3. Search for "PromoJukeBox", click on the PromoJukeBox app button, and then click "+ Add Integration".4. Choose the name by which you want to identify the application, with the default being PromoJukeBox.5. You will be redirected to the "Assignments" tab. Here, assign users or groups that require access to PromoJukeBox.6. Go to the "Sign On" tab and copy the Client ID and Client secret:

The screenshot shows the Okta Application Details page for an application named 'PromoJukeBox'. The top navigation bar includes a user icon, the application name, and buttons for 'Active', 'View Logs', and 'Monitor Imports'. Below the navigation is a tab bar with 'General', 'Sign On' (which is selected and underlined), 'Import', 'Assignments', 'Okta API Scopes', and 'Application Rate Limits'. A red arrow points to the 'Sign On' tab. The main content area is titled 'Settings' with an 'Edit' link. Under 'Sign on methods', it says: 'The sign-on method determines how a user signs into and manages their credentials for an application. Some sign-on methods require additional configuration in the 3rd party application.' It then lists 'Application username' and 'Configure profile mapping'. A red arrow points to the 'Configure profile mapping' link. Below this, a section for 'OpenID Connect' is shown. It includes fields for 'Client ID' (value: '*****', with a copy icon) and 'Client secret' (value: '••••••••••••••••••••••••••••••••', with a copy icon). Red arrows point to the copy icons for both fields.

7.

Copy the Okta domain, which can be found by clicking on your username in the top right corner of the Admin Console:

8. Email us your Client ID, Client secret, and Okta domain at tech@promojukebox.com with the subject "Okta SSO Configuration". Upon receiving this information, we will set up your Okta instance and notify you once SSO is enabled for your organization.

Usage Instructions After SSO Activation - SP Initiated Auth

After PromoJukeBox has enabled SSO for your organization, we will send you an individual TenantID. With this TenantID, you can log in to PromoJukeBox at <https://www.promojukebox.com/okta>:

OKTA Login

Fields marked with an asterisk * are mandatory

TenantID *

Please enter your TenantID

If you do not yet have a PromoJukeBox account, please sign up first at <https://www.promojukebox.com/signup> if you are the first PromoJukeBox user in your company, or have a PromoJukeBox account created for you by the existing PromoJukeBox admin user in your company.

For any inquiries regarding the creation of PromoJukeBox accounts, feel free to contact us at any time at tech@promojukebox.com.

Usage Instructions After SSO Activation - IdP Initiated Auth

1. Open a new tab/window in your browser and sign in to your Okta account as an administrator.
2. Navigate to "**Applications**" and click on the **PromoJukeBox** application.
3. Go to the "**Sign On**" tab and click the "**Edit**" link:

4. Beneath the "OpenID Connect" block, where your "ClientID" and "Client secret" are displayed, you will see "**Advanced Sign-on Settings**". Please enter your TenantID in the "**TenantID**" field as shown below and save the change by clicking the "**Save**" button.

Sign on methods

The sign-on method determines how a user signs into and manages their credentials for an application. Some sign-on methods require additional configuration in the 3rd party application.

Application username is determined by the user profile mapping. [Configure profile mapping](#)

OpenID Connect is the only sign-on option currently supported for this application.

OpenID Connect

Client ID [Copy](#)

Public identifier for the client that is required for all OAuth flows.

Client secret [Copy](#)

Secret used by the client to exchange an authorization code for a token. This must be kept confidential! Do not include it in apps which cannot keep it secret, such as those running on a client.

Advanced Sign-on Settings

These fields may be required for a PromoJukeBox proprietary sign-on option or general setting.

TenantID 

Enter your TenantID. Refer to the Setup Instructions above to obtain this value.

5. From this moment, you can click on the PromoJukeBox icon on your "Okta End User Dashboard" to launch and log into PromoJukeBox automatically.

Important Information

Once PromoJukeBox enables SSO for your company, traditional password logins, i.e., logging into PromoJukeBox with your username and password without Okta, will be disabled. Note that users must have a PromoJukeBox account, which can be created by signing up at <https://www.promojukebox.com/signup> or later on the PromoJukeBox User Management page.
