

## PromoJukeBox Okta Integration Manual

Starting January 2024, PromoJukeBox is pleased to offer Okta integration for enhanced convenience and security within your organization. If you have any questions regarding Okta integration in PromoJukeBox, please contact us at [tech@promojukebox.com](mailto:tech@promojukebox.com).

### Supported Features

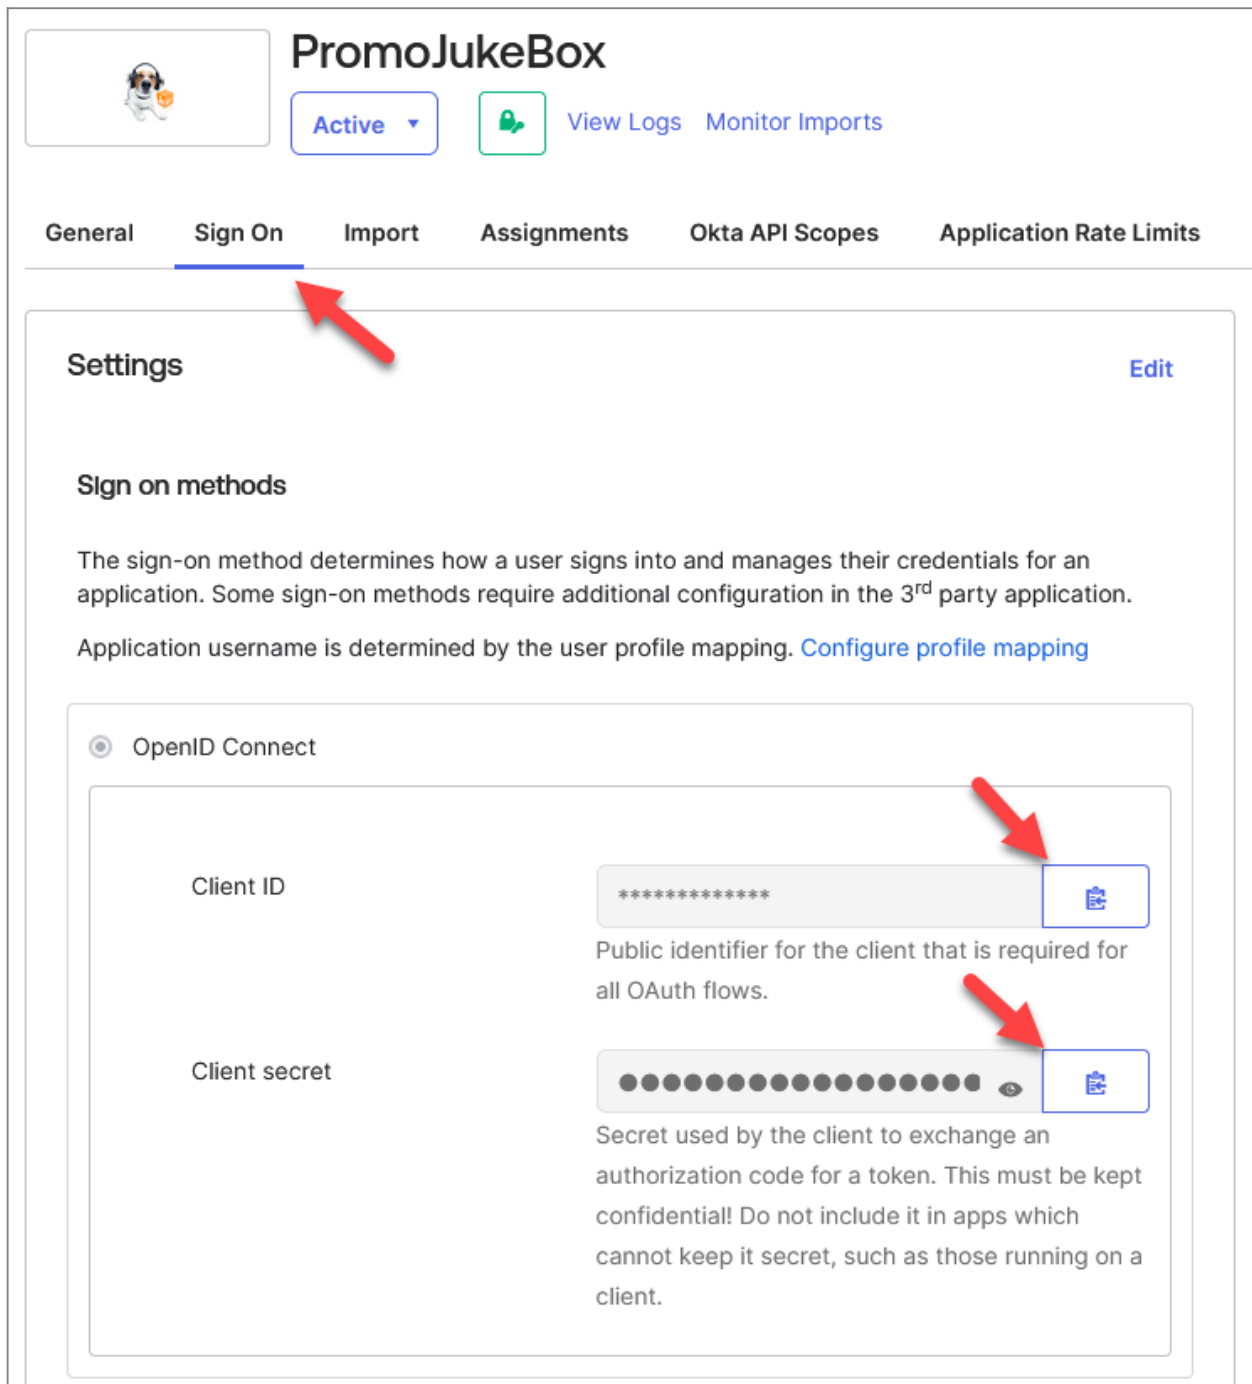

- Single Sign-On - SP Initiated Auth
- Single Sign-On - IdP Initiated Auth
- Okta Integration Network Catalog
- Okta Dashboard Integration

### Requirements

- Administrative access to an Okta organization.
- A PromoJukeBox account

## Configuration Steps

1. Open a new tab/window in your browser and sign in to your Okta account as an administrator.
2. Navigate to "**Applications**" and click on the "**Browse App Catalog**" button.
3. Search for "PromoJukeBox", click on the PromoJukeBox app button, and then click "+ Add Integration".
4. Choose the name by which you want to identify the application, with the default being PromoJukeBox.
5. You will be redirected to the "Assignments" tab. Here, assign users or groups that require access to PromoJukeBox.
6. Go to the "Sign On" tab and copy the Client ID and Client secret:

The screenshot displays the Okta management interface for the 'PromoJukeBox' application. At the top, there is a header with the application name 'PromoJukeBox', a status 'Active' dropdown, and links for 'View Logs' and 'Monitor Imports'. Below this is a navigation bar with tabs for 'General', 'Sign On', 'Import', 'Assignments', 'Okta API Scopes', and 'Application Rate Limits'. The 'Sign On' tab is selected and highlighted with a red arrow. The main content area is titled 'Settings' and includes an 'Edit' link. Under the 'Sign on methods' section, 'OpenID Connect' is selected. Two red arrows point to the 'Client ID' and 'Client secret' fields, which are masked with asterisks and dots respectively. Each field has a copy icon to its right.

7.

Copy the Okta domain, which can be found by clicking on your username in the top right corner of the Admin Console:

8. Email us your Client ID, Client secret, and Okta domain at [tech@promojukebox.com](mailto:tech@promojukebox.com) with the subject "Okta SSO Configuration". Upon receiving this information, we will set up your Okta instance and notify you once SSO is enabled for your organization.

## Usage Instructions After SSO Activation - SP Initiated Auth

After PromoJukeBox has enabled SSO for your organization, we will send you an individual TenantID. With this TenantID, you can log in to PromoJukeBox at <https://www.promojukebox.com/okta>:

OKTA Login

Fields marked with an asterisk \* are mandatory

TenantID\*

Please enter your TenantID

Watermark Mailings

- Label / record company
- Promotion company
- Music publishing
- Artist

For any inquiries regarding the creation of PromoJukeBox accounts, feel free to contact us at any time at [tech@promojukebox.com](mailto:tech@promojukebox.com).

## Usage Instructions After SSO Activation - IdP Initiated Auth

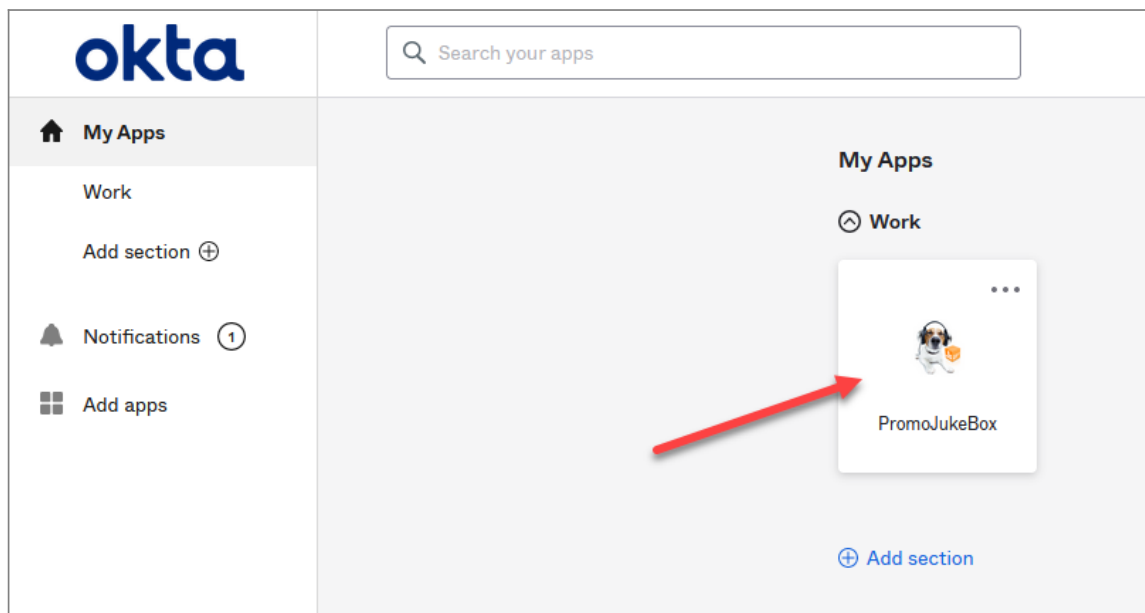

1. Open a new tab/window in your browser and sign in to your Okta account as an administrator.
2. Navigate to "**Applications**" and click on the **PromoJukeBox** application.
3. Go to the "**Sign On**" tab and click the "**Edit**" link:

4. Beneath the "OpenID Connect" block, where your "ClientID" and "Client secret" are displayed, you will see "**Advanced Sign-on Settings**". Please enter your TenantID in the "**TenantID**" field as shown below and save the change by clicking the "**Save**" button.

The screenshot shows the PromoJukeBox settings interface. At the top, there is a header with a logo, the name 'PromoJukeBox', and a status 'Active'. Below the header are navigation tabs: 'General', 'Sign On' (highlighted with a red box), 'Import', 'Assignments', 'Okta API Scopes', and 'Application Rate Limits'. The 'Sign On' tab is active, showing a 'Settings' panel with a 'Cancel' button. Under 'Sign on methods', there is a message: 'OpenID Connect is the only sign-on option currently supported for this application.' Below this, the 'OpenID Connect' method is selected. It shows fields for 'Client ID' and 'Client secret', both with masked values and copy icons. Below these is the 'Advanced Sign-on Settings' section, which includes a note: 'These fields may be required for a PromoJukeBox proprietary sign-on option or general setting.' The 'TenantID' field is highlighted with a red box and a red arrow pointing to it. Below the field is the instruction: 'Enter your TenantID. Refer to the Setup Instructions above to obtain this value.'

5. From this moment, you can click on the PromoJukeBox icon on your "Okta End User Dashboard" to launch and log into PromoJukeBox automatically.

## Important Information

Once PromoJukeBox enables SSO for your company, traditional password logins, i.e., logging into PromoJukeBox with your username and password without Okta, will be disabled. Note that users must have a PromoJukeBox account, which can be created by signing up at <https://www.promojukebox.com/signup> or later on the PromoJukeBox User Management page.
